MEMORANDUM FOR      The Honorable Allen Dulles

Photographs of President Kennedy in black and white (17" by 23") with the President's signature at the bottom have been printed from the official photograph and will shortly be available. A supply of 25 will be provided to you for your agency.

I will appreciate your cooperation to assure advantageous distribution of the photographs in both Washington offices and across the country, if applicable for your agency. They should be used for public entrances, lobbies, reception rooms, dining rooms, larger staff offices and similar places where they will draw staff and visitors attention.

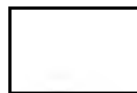

The supply is limited; and unfortunately the amount listed above represents the one and final shipment. If, for any reason, you cannot find use for the entire amount, I will appreciate their return to this office.

Thank you for your cooperation in this project.
